

SINGLE-SOURCE PARKING GARAGE RESTORATION

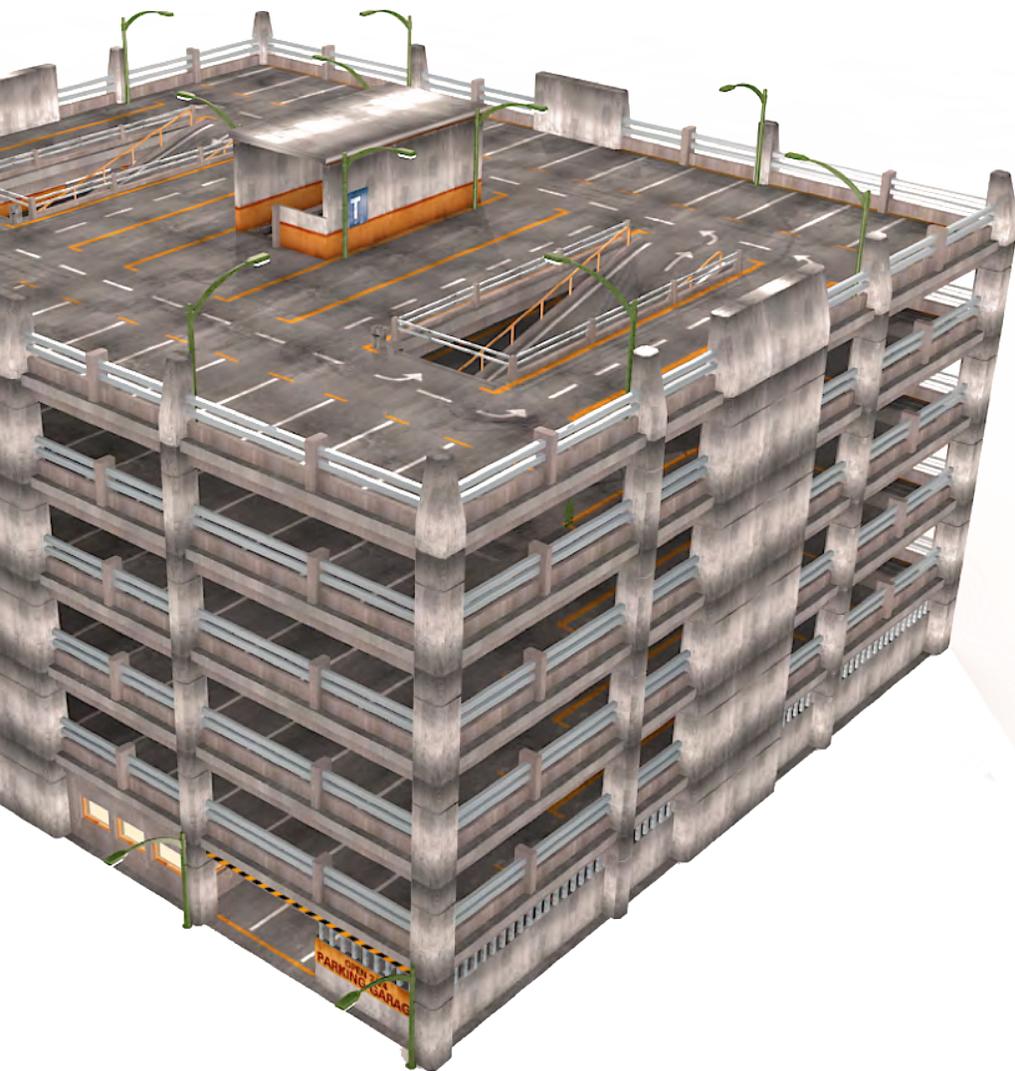

*Comprehensive, Compatible Parking Garage Restoration Systems with
Fast Turnaround and Single-Source Warranty Options*

COMPLETE RESTORATION SOLUTIONS FOR PARKING GARAGES & FACILITIES

Whether precast, cast-in-place, or post-tension construction, Euclid Chemical, Fibergrate and Tremco Construction Products Group (CPG) companies offer a comprehensive set of products and systems for the complete restoration and long-term protection of your parking facility.

The strength of our combined product portfolio means we can meet the unique demands of any project — the type, location and extent of damage present, speed of application, the facility's service life, long-term durability, budget considerations and more.

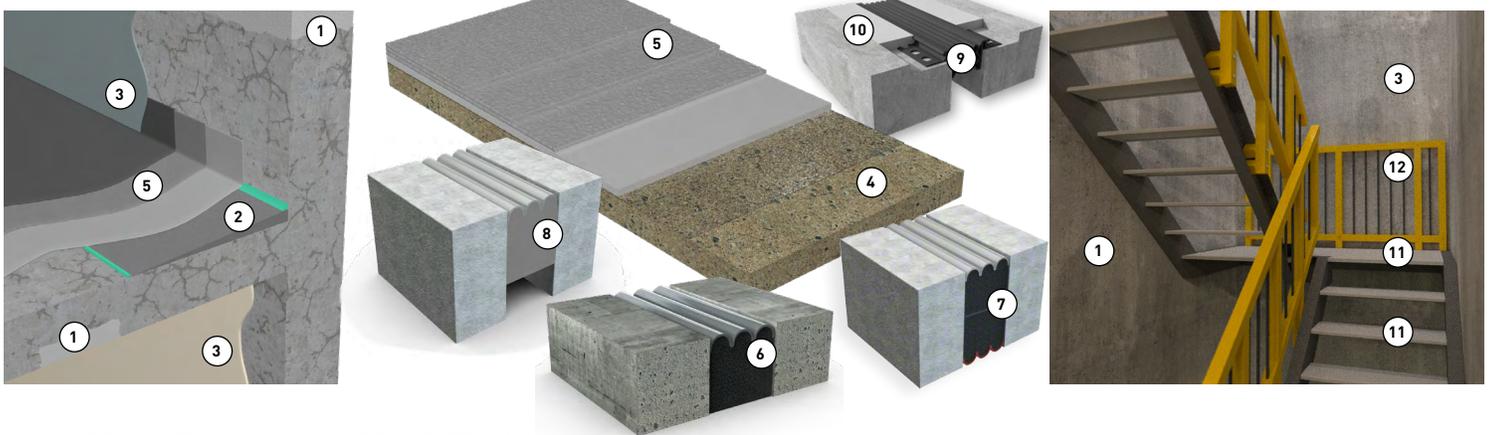

OUR COMBINED SYSTEMS INCLUDE:

- Vertical and Overhead Repair Mortars
- Horizontal Repair Mortars
- Fast-setting Repair Mortars for Quick Turnaround
- Cathodic Protection
- Penetrating Sealers
- Epoxies for Bonding and Anchoring
- Sealants, Joint Fillers and Crack Repair
- Pre-Compressed, Self-Expanding, Traffic-Grade Foam Expansion Joints
- Waterproofing Membranes
- High-Performance Traffic Coatings
- Architectural Wall Coatings
- Composite Grating, Stair, Landing, Guardrail and Handrail Systems

QUICK TURNAROUND PRODUCTS FOR FASTER RETURN TO SERVICE

In parking garage restoration, any downtime means lost revenue. Many of our products are engineered to expedite the process and get your parking facility operational as quickly as possible:

- Euclid Chemical rapid turnaround concrete repair products like VersaSpeed™ 100, EucoRepair™ V100 and EucoRepair™ SCC Fast are user-friendly and fast-setting in horizontal, vertical or overhead applications.
- Willseal pre-compressed, self-expanding foam expansion joints can be opened to traffic quickly after installation and applied in low temperatures to eliminate costly shutdowns.
- Tremco Vulkem® EWS traffic coating systems with PUMA (Polyurethane-Methacrylate) technology are highly durable, fast curing and can be opened to traffic 1 hour after installation of final coat.

	PRODUCT	DESCRIPTION
EUCLID CHEMICAL	1 EUCOREPAIR V100	Micro-fiber reinforced, fast setting, very low shrinkage mortar for trowel applied vertical and overhead concrete repair
	2 VERSASPEED™ LS 100	Longer setting repair mortar that provides a speedy cure with extended working time
	3 TAMMSCOAT™	High-build, decorative, water-based acrylic anticarbonation coating used to protect concrete and masonry surfaces
	4 DURALFLEX™ FASTPATCH	Moisture insensitive epoxy repair kit designed to provide a high strength, wear resistant surface for horizontal spalls and joint headers.
TREMCO CPF	5 VULKEM® EWS TRAFFIC COATING WITH PUMA TECHNOLOGY	Cold-applied traffic deck coating system with tenacious adhesion and extreme abrasion resistance. Fast-curing to minimize downtime
	6 WILLSEAL® 250	Pre-compressed, open cell foam joint sealant with traffic-grade sealant coating and suitable for pedestrian and vehicular traffic. Capable of +/-50% movement from the mean gap size.
	7 WILLSEAL® FR-H	Pre-compressed, open cell foam joint sealant capable of FR ratings for 1-, 2-, or 3-hour, with traffic-grade sealant coating and [suitable for pedestrian and vehicular traffic capable of +/-50% movement from the mean gap size.
	8 WILLSEAL® COLOR CORESEAL-H	Compressible, closed cell foam joint sealant with traffic-grade sealant coating, and suitable for pedestrian and vehicular traffic. Capable of +/-25% movement from the mean gap size.
	9 WILLSEAL® WJS	Deck expansion joint system that combines an extruded elastoprene rubber seal with Willcrete, an impact absorbing elastomeric concrete, to create a continuous seal with concrete decks.
	10 WILLCRETE	Impact-absorbing elastomeric concrete that works with Willseal WJS to create a continuous seal with concrete decks.
FIBERGRATE	11 FIBERGRATE MOLDED GRATINGS	Structural, molded composite grating for stair stringers, covered stair treads, landings and more
	12 DYNARAIL GUARDRAILS AND HANDRAILS	Pultruded, corrosion-resistand composite handrails and guardrails, available in a wide variety of colors and styles for safety and functionality

	OTHER PRODUCTS	DESCRIPTION
EUCLID CHEMICAL	EUCOWELD 2.0	Liquid latex bonding agent for cement-based repair mortars and concrete that produces epoxy-like strength
	TAMMSPATCH II	Two-component polymer reinforced cementitious mortar for repairs 1/8" to 1"
	EUCOREPAIR SCC FAST/SCC	Microfiber reinforced self-consolidating concrete repair that allows for form and pour/pump repairs
	EUCO RE-COVER	Polymer modified, fiber-reinforced concrete resurfacing mortar for quicker curing repairs 1/16' to 3/8"
	VANDEX SUPER	Waterproof treatment that becomes an integral part of concrete through a crystallization process. Ideal for elevator pits, water tanks, and water treatment applications.
TREMCO	DYMONIC® 100	High-performance, medium-modulus, low-VOC, UV stable, non-sag polyurethane sealant for expansion & control joints, caulking and more
	VULKEM® 45SSL	Semi-self-leveling, single-component, polyurethane sealant for use in expansion joints in horizontal surfaces with slopes up to 6%

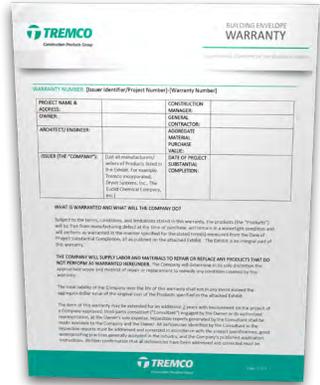

SYSTEMS BACKED WITH LEADING WARRANTIES AND TECHNICAL SUPPORT

INDUSTRY-LEADING WARRANTY OPTIONS

Because products from Euclid Chemical and the Tremco CPG companies undergo rigorous testing for compatibility and superior long-term performance, you get the peace of mind that comes from unparalleled warranty options.

Standard material warranties are offered for time-tested Euclid Chemical and Tremco products. Extended, **industry-leading labor & material warranty options** are available when an applicator combines the proven performance of both product lines.

And the strength of our relationship means the warranty is truly single source: one document, one point of contact, one less thing to worry about.

HANDS-ON FIELD TECH SUPPORT

On-site conditions always vary, presenting unforeseen challenges on the project. Euclid Chemical, Fibergrate and Tremco CPG's 200+ years of combined experience means our local sales and technical field representatives have the expertise to determine the ideal solution for your project.

We routinely collaborate with key parking facility stakeholders to diagnose and recommend solutions for even the most complex restoration projects.

Lean on our expertise for pre-construction meetings, mockups and details, technical documents, compatibility testing, surface preparation, on-site product training, sequence of installation guidance and more.
